

Economic and Social Council

Distr.: FIR
1 November 2018

Resolution adopted by the Economic and Social Council on November 1, 2018

Economic and Social Council,

Recognizing the rapid development of global digital technologies,

Taking into consideration the growing influence of new technologies on humanity,

Having considered the dangers of modern technologies on mankind from its incorrect usage,

Stressing the importance of protection of the right to inviolability of private life in the digital age,

1. *Urges* to establish a committee for creating the international standards of cyber security and consolidating these standards at legislative level of all the UN member states;
2. *Suggests* to increase the level of digital literacy by providing people with access to specialized state institutions and information protection agencies;
3. *Recommends* improving trusting relations between governments and people by creating a more transparent contact with civil society.
